

Dear Parent,

Greenfields Public School always believed and aimed at providing an environment to learners in which their young minds could take a flight into realms of knowledge to become top notch leaders in their chosen fields.

In tandem with the above we seek immense pleasure to apprise that Greenfields Public School has achieved a milestone by introducing Integrated classes for Engineering and NEET aspirants in collaboration with Narayana Institute. Narayana Institute is a name and has carved a niche for itself as far as the competitive examinations and the results are concerned.

The integrated classes are being introduced for the learners of grade 11 with scientific and technical acumen, for the session 2022 -23 in the school premises during the school hours. The classes will focus on CBSE curriculum, competitive exams of engineering and medical, rigorous brainstorming sessions, doubt classes and weekly evaluations. All the aspirants of IIT-JEE, NEET etc. may contact the school reception in person, from 16th June 2022 between 10.00 a.m to 2.00 p.m for further details.

Also, very shortly, an orientation program will be organised for the parents and the learners, the date and time of which will be intimated soon.

Prerna Barsaley

Vice Principal
